The Missing Half of Family Planning

53%	50%	1.9yr	60%	7.8%
Male Sperm Count Decline (40 years)	Male Infertility Factor (Product share: ?%)	Male Hospital Visit Delay	Improvable with Early Detection	Under 25 Already Infertile

1. PROBLEM: DRUGSTORE FAMILY PLANNING SECTIONS ARE DOMINATED BY PREGNANCY/OVULATION TEST KITS AND **WOMEN'S PRODUCTS ACCOUNT FOR OVER 90%** OF THE SHELF SPACE.

2. SOLUTION: HAGOBOGO COMPLETES THE CATEGORY

Visual Intuitiveness (See with Your Eyes)	App-Based Data (Manage It)	Global Certification (Trust It)
Beyond simple status display, users can directly observe sperm motility through smartphones, eliminating entry barriers	Dedicated app saves/tracks results and provides personalized tips for continuous management	Verified quality with Korea/Japan Medical Device Class 1, EU IVDr Class B certifications (HAGOBOGO Pro)

3. PROVEN GLOBAL SUCCESS (EVIDENCE IN NUMBERS)

🇰🇷 **Korea (#1 Category Leader)** 100K units sold within 1 year, achieving #1 category ranking (Available at Olive Young, 7-Eleven, etc.)

🇯🇵 **Japan (#2 Ranking)** Achieved #2 category ranking and #2 brand within 5 months (Available at Matsumoto Kiyoshi, Amazon Japan)

🌍 **Global Expansion** Expanding to 10 countries within 6 months including USA (Amazon #3), Canada, Singapore, etc.

📱 **Marketing Viral Success** Korean SNS campaigns generated 100M+ cumulative views through 200 videos (accumulated success know-how)

4. HAGOBOGO PRODUCT BENEFITS

Up to +259% Average Transaction Value

When bundled with women's products as 'Couple Kit', average transaction value can reach up to $47 (HAGOBOGO) / $97 (HAGOBOGO Pro)

New Customer Acquisition

60% of buyers are women purchasing for their partners, securing new customer segments.

Category Leadership

Complete the family planning category and secure differentiation points ahead of competitors.

5. 3-STAGE MARKET ENTRY STRATEGY

Stage 1: Awareness Building	Spread "Easy at-home testing before visiting hospital" message based on proven 100M-view viral marketing expertise
Stage 2: Purchase Conversion	Drive offline transaction value increase through 'golden zone' placement next to women's products and couple bundle merchandising
Stage 3: Repurchase/Lock-in	Encourage 3-month cycle retesting via app push notifications, create sub-categories through personalized supplement recommendations
